FEATHER SOT K1

ADVANCED

All Carbonology Sport skis are available in a downriver construction, however the Feather SOT conforms to CSA K1 regulations for river races.

This K1 Sit on Top is designed for downriver races. Water is dispersed by the splash-lip and drained by two flexible and independent venturies. The fact that you do not need a splash cover/spray deck speeds up your portages drastically and with the ability to just jump back in if you have an unfortunate swim as the boat cannot fill with water really makes this an exciting product. An empty boat is also a safer boat with very little risk of it getting wrapped around river obstacles.

GENERAL SPECIFICATIONS

LENGTH: 5.2M **WIDTH:** 0.41 M **HEIGHT:** 0.35 M **WEIGHT CLASS:** 60KG – 100KG

BUILD TYPES & WEIGHT

GLASS VACUUM	HYBRID	CARBON	CARBON/HONEYCOMB	RIVER
12kg	10.5kg	8.5kg	8kg	12.5kg
